## Welcome to Eastwood eNews

Welcome to the inaugural editions of the *Eastwood eNews*! We are transitioning the traditional newsletter to this new format in an effort to not only move to a more green publication, but also develop a format in which we can report on stories of interest to the neighborhood as they are happening. The traditional *Eastwood Voice* is planned to still be available on a quarterly basis to those paid ECA members who request a copy be mailed to them.

As we do want to expand our electronic distribution, though, please forward this to all friends and family members who may be interested so that we can further grow our electronic distribution.

### New CVS Coming Soon

The new CVS that is being built at the corner of Lockwood and Harrisburg is almost complete and is slated to open on May 24th according to company sources. This beautiful new store is not only much larger than the older store, but also offers expanded amenities like a drive through pharmacy and 24 hour service. CVS is taking a chance on Eastwood by putting this new store in our neighborhood and it is important that we repay them for their loyalty with some of our own. In fact, future businesses are most likely looking to CVS's performance in this new location as a barometer of whether or not they should move into the neighborhood. Make sure that we show these business owners that we are behind expansion in the East End by doing as much of your purchasing as possible at CVS. Transfer your prescriptions, buy your beer or wine, whatever you can to support this wonderful new business. It will only help us all in the long run.

### Lone Star Plus Laundry & Bourbon

 It recently came to our attention that
